KeyMackro is an advanced text input tool for both phone and the desktop. It combines all the great features of a smart phone keyboard with the power of Mac OS X Lion and OS X Mountain Lion. With KeyMackro you can enter text, make phone calls, and access the mobile phone features of your device with ease. Use your iPhone 4, 4S, or 5 as a phone to make and receive phone calls, SMS/MMS messages, and Facetime calls. The interface of the application is very similar to the iPhone's native iPhone keyboard, so you will feel right at home. You can use the normal keyboard, or you can just drag your finger across the screen to enter text. A new powerful keyboard for Mac! KeyMackro uses the advanced touch screen technology that the iPhone introduced with the iPhone 4. That technology lets you use your Mac like you use your iPhone. The virtual keyboard can be either a one-handed keyboard, or an in-between keyboard. You can use the one-handed keyboard for when you are typing in a document or browsing the web. The in-between keyboard is designed for when you are entering text. The in-between keyboard adds a second row of virtual keyboard keys above the on-screen keyboard. These two rows of keys let you enter text quickly and easily. KeyMackro's advanced technology is fully compatible with iPhone 4, iPhone 4S, and iPhone 5. It is designed to work with both the iOS and the OS X platform. You can use KeyMackro as a separate app or an app that complements the OS X KeyMackro application. KeyMackro supports the following operating systems: Mac OS X Lion and Mac OS X Mountain Lion. KeyMackro supports the following languages: English, French, Spanish, Italian, Portuguese, German, Hungarian, Russian, Romanian, Japanese, Arabic, Korean, Thai, Mandarin, Vietnamese, Hindi, Urdu, Hebrew, Farsi, Polish, Slovak, Bulgarian, Estonian, Finnish, Kazakh, Latvian, Lithuanian, Macedonian, Malagasy, Turkish, Thai, Polish, Korean, Arabic, Ukrainian, Bulgarian, Hungarian, Russian, Romanian, Croatian, Serbian, Bosnian, Estonian, Latvian, Lithuanian, Macedonian, Malagasy, Uzbek, Russian, Ukrainian, Korean, Polish, Slovak, and Bulgarian. KeyMackro supports the following mobile platforms 77a5ca646e

Alarm Cron is a full-fledged alarm clock with additional functionality that not only enhances it but creates a rather complete product. You can tell this is the aim of the developer just by the list of future additional content that is planned for this particular app. You have a clock, an alarm, a timer and stopwatch all brought together in one app. You can customize the sounds this clock app uses to alert you and you can actually run commands from its very own interface. It's simply packed with many features No matter what particular feature interests you most, you won't fail to notice the others. Apart from working very well, one should notice how well these fit together. It's as if you're buying a suite of tiny programs, each with its particular task. One of the most interesting features is, of course, the command line. You can run different commands from within the app. Aside from the huge amount of functionality going on, the interface is pleasant to the eye. It may not have any pompous themes, but it sure does have style. What possible use could I have for this? For starters, you could use it as a stopwatch for checking the time it takes for you to finish certain tasks. You could also use it as a reminder for you to finish certain tasks. It can, without a doubt, be a very useful alarm clock just as it could equally be an easy-to-use cooking timer. At this point, there can't be too many time-related uses that this clock application can't be a match for. Simply try it, and you will arrive at the same conclusion. Alarm Cron is an application that most individuals should try. If you like to be on time, if you want to be more organized, if you desire efficiency in your life, start with this application, and you will have made your first step towards the greater goal of becoming more productive and satisfied with yourself. Advanced Alarm Clock Description: Are you missing an alarm clock to set your own schedule? Advanced Alarm Clock sets up your own beautiful alarms without you having to go through the hassle of time management. There is a reason this application has been one of the best selling alarm clock applications on Android! Advanced Alarm Clock will give you the ability to create different types of alarms. Let the app put your own alarm. It will make it so that the alarm you create will trigger even when the phone is in sleep mode. Do not forget to customize your snoo
