Jurassic World Hindi Full Movie Download Jurassic World is a 2015 science fiction adventure film based on the 1993 blockbuster film of the same name. Directed by Colin Trevorrow and starring Chris Pratt, Bryce Dallas Howard and Jake Johnson, the film is a sequel to 2014's Jurassic World, and a reboot to the Jurassic Park franchise.[1] In contrast to

its predecessors, which were set in the present or near future, the film is set in a post-apocalyptic future sometime after the events of the first film. Synopsis A group of tourists are on a tour of the island of Isla Nublar when a helicopter arrives. Inside the helicopter is Dr. Henry Wu, the manager of Isla Nublar. He explains that the island has been infested by a dinosaur and allows the tourists to take a boat to a hidden facility,

where they meet Dr. Alan Grant, the director of the original park. Upon arriving at the location, Grant reveals that the dinosaur is on the island and has escaped from its enclosure and has started breeding. Grant then radios Dr. Wu to remove the dinosaur from the island, but the boat crew instead leaves and brings the dinosaur to the facility. The island then becomes lost in a large sinkhole and is swallowed by the dinosaur. Six years

later, Pratt as Owen Grady returns from military service to reunite his family in San Diego, California. In the aircraft carrier, Pratt meets Dr. Claire Dearing, Grant's wife who is initially hostile to him. Meanwhile, the island has been reconstructed as a theme park, where the audience are introduced to the new dinosaurs. Pratt and his children's father, Will fall in love with a new dinosaur, Blue, who is a very large

Velociraptor, which were thought to have become extinct millions of years earlier.

Pratt joins the park's staff, where he works alongside Dr. Zach Berkeley. In the past, the dinosaur Ellie appears in a time capsule, and rescues the children and their father. They then find Grant, and talk with him, revealing that the dinosaurs are indeed still alive. The group convinces Grant to help them return to the island, where Grant uses the film from

the original film to rebuild the time machine. As the film plays, Blue and company can be seen on the screen. After a successful trip, the group of people escape the island and end up on a ship. The ship is attacked by another dinosaur, which Grant and Ellie manage
